

Grundschule • Blücherstraße 12 • 40477 Düsseldorf

Dear parents, dear colleagues, dear OGS team,

due to a given occasion I have to come back to the annoying topic "head lice". Lately they have been appearing more frequently again.

It is therefore important and obligatory that you

 \square notify us immediately if your child is infested with nits or head lice and keep your child at home until after the first treatment. After the first correct treatment, which you confirm to us with the enclosed form, your child can come back to school. A second treatment is mandatory after 8-10 days.

☐ The notification must be sent immediately and obligatorily to both e-mails

kg.bluecherstr@schule.duesseldorf.de, ogs.rochus@caritas-duesseldorf.de

A notification according to § 34, paragraph 6 Infection Act is obligatory for us as a school and we will immediately inform the health department about the diseases reported to us.

For further information, please refer to our homepage/downloads/head lice. I would therefore urge you to act in the interests of the school community and not to keep the head lice infestation quiet.

With kind regards

Miroslawa Berg School Director

Please detach here and hand in at school
claration of the child's parents/guardians
I have examined my child's head and found lice/nits and have treated the head with the product
I assure that after 8 - 10 days I will carry out a second treatment
er 8 - 10 days.
